

## HRSA News

Friday March 9th, 2018

---

### **Phil Renouf's Garage sale, Saturday March 10th at 12 noon**

#### **We are including more member's items for sale**

Here's an example from one seller ...

- 20 mantle radios, more than half working, Astor, AWA, Healing and much more
- Fluke Frequency Counter (small bench type), working
- Palec valve tester (appears to work)
- Power supplies for Coffin type radios
- Coffin type radio, ideal for a restore job, late 1920's
- FRG7 Yaesu Comms receiver (appears to work OK)
- Yaesu FT7, 80 to 10 metre band 12 volt 2 way radio (appears to work OK)
- 1920's old coffin type radio coils, valve sockets, several boxes of carbon granules, insulators, etc
- AWA VTVM (the one with the big meter), works well really quite accurate for its age
- Old working mirror back multimeter, works well

A Station Wagon full of the above

Be there Saturday at Noon for lots of really old radio stuff (plus some not so old stuff)

#### **Stan will be selling Valve Bank items like ...**

- The Philip Leahy manuals (all 8 volumes will be available).
- The AWA Radiolette manual,
- HRSA Training notes and
- How your radio works.
- Also a good range of new caps for sale.

## **Memberships**

To streamline Membership applications and renewals, we will have a new PO Box and dedicated bank account.

Members will be asked to only pay Membership fees with their membership application and renewals - *not mixed orders like:* • *one years membership plus* • *four back issues and* • *one valve*. (Mixed orders cause a lot of correspondence and delays)

## **Steam Fest March 10, 11, 12**

With so many things currently done by a few volunteers, we will not have a display at the Steamfest this year.

If you like Steam Equipment, their display is on March 10, 11 and 12.
